---

1 Quick Start Guide and Simple Usage.

Copy the style file `ethuebung.sty` into the same directory as your exercise sheet LaTeX file. No other files are needed (no logo images etc. are needed as they are packaged with the style file).

Start off with the minimal template

```
\documentclass[11pt,a4paper]{article}

\usepackage{ethuebung} % comment this and uncomment next line for solutions
%\usepackage[sol]{ethuebung} % uncomment for solutions

\UebungLecture{Microstructures of molten cheese.}
\UebungProf{Prof. Zebigboss}
\UebungSemester{HS 2999}

\UebungsblattNumber{1}

\begin{document}
\MakeUebungHeader

\exercise{Title of the exercise.}

In this exercise, you will be asked to do some work.

\begin{exenumerate}
\item Solve the following equation.
  \begin{align}
    x^2 = 1\ .
  \end{align}
  \hint{There might be more than one solution.}

  \begin{solution}
  \end{solution}
\end{exenumerate}

\end{document}
```

2 Basic Usage
